**Subject:** Next IAG Call  
**Date:** Thursday, February 17, 2022 10:10:29 AM

---

Sharon, Brian,

On the next IAG tele March 3<sup>rd</sup>, we wanted to discuss how EPA and the State have been addressing regeneration of granular activated carbon containing PFAS. This is an issue for us since we have been and were planning to continue to regenerate our spent carbon.

We wanted to give you a heads up prior to the call so you can touch base with your technical support folks. If you have any input/guidance that you can send us prior to the teleconference, that would be great.

PS, The next Community Advisory Council meeting is on March 10<sup>th</sup> and will include PFAS and HFBR stack updates.

Thanks Bob
